Photographer Ed Dawson's amazing images

Photographer friend Ed Dawson does some amazing work transforming regular flying field images into works of art. Here, he has worked on photos of Mike Sebastian's Tiger Moth. That's Mike checking his plane in the center photo.

AVIATES RC CLUB August 28th

Gilles Daigle is going over a Seagull AT-6 TEXAN he picked up last month from one of the Wings of Wellington members. Doing rivets, panel lines with silver, "dirty dusting" with charcoal black and flat clear lacquer. Oil leaks and smoke stains will be airbrushed last.

Some bits and bytes from the Zone

From Stephen Rodney Ryan: Perfect weather and perfect SW winds for slope soaring. With an endless stream of visitors, tourists, and spectators, and with 6 flyers, it felt like a mini-Slopefest '22. Our activities were closely scrutinized by an eagle overhead for much of the day, and I was chased by what I'm fairly sure was a Peregrine Falcon which was a privilege! I have been chased by them before. They're the fastest animal on Earth.

From Colin Bell: Where's Waldo, OMP heli version. Matching bodywork/canopy.

Some bits and bytes from the Zone

From Gilles Daigle: Taking it slowly and relaxing while working on this Still Racer. 90% done.

ZONE B NEWSLETTER

Some bits and bytes from the Zone

From Jim Gavel: Hats off to all the WoW club members for a great day of flying and camaraderie. Special thanks to all who helped in locating my airplane in the cornfield. It would have been impossible to ground search in the corn but with CASARA onsite with their search drone, the plane was easily located in minutes and recovered. Thanks to everyone involved. The autopsy has been completed and cause of the crash was a dead Tx battery.

Jim Lloyd flying the Wright Flyer at the Neat fair. Downsville New York State, USA. All fliers came down and gave him the sky. After an hour of noisy pit yacking at the noon show, there was sudden silence as he flew and then the place erupted as he landed. This is the seventh Wright Flier that Jim has built.

FROM YOUR ZONE DIRECTOR

To you all,
If you sign in to your account on the MAAC website, there is a notice that comes up for you to assign your vote to whoever you are comfortable with and it is automatically assigned to that person, just make sure that person is attending the Zone meeting, this year, anybody's proxy are only going to be used for a total to get a quorum to be able to hold a Zone meeting as we don't have any election this year as nobody stepped forward to run for the Deputy Zone Director position, so that position will be appointed by me and a new election will be held next year Zone meeting. Have a good one, and hopefully we will see you at the Zone meeting.

Thanks, as this is something new that was made available this year.
Cato.
